

GOLD COAST TURF CLUB

“Racing every Saturday in Paradise”

21ST May 2009

To whom it may concern,

RE: Testimonial on behalf of GC KITCHENTECH

I have known the Managing Director of Kitchen Tech for the past two years in a professional capacity, and would hope that this testimonial is accepted with the sincerity with which it is written.

Con, has undertaken varying facets of cleaning maintenance work at the Club with an exceptional degree of meticulous forethought that neither I nor the Directors can find fault with. I have provided only a few examples below;

1. Work at Height, outer building clean down, Stewards Towers
2. Scheduled Maintenance on high use public conveniences
3. Commercial kitchen strip down and clean
4. Escalator clean-down and re-mark
5. Carpet steam cleaning
6. Event/Builders clean

I am responsible for the upkeep and maintenance of a commercial hospitality facility that invites over 400 000 patrons per year. My standards are very high and I would not use another company whilst I have the professionalism of Con and his team at my disposal.

Please feel free to contact me directly if your require any further information

Yours Sincerely,

Graham Webb
Operations Manager
